

## SAGE'S GOLDENS

# *Puppy Selection Process*

---

### **PUPPY PICKS:**

Puppy selections will take place when the puppies are 6 weeks old, after they have had their veterinary health examination. We wait until then so we know every puppy is healthy and developing well before families make their final choice.

### **SELECTION ORDER:**

Puppy picks are made in the order that deposits were received. The first deposit receives first pick, the second deposit receives second pick, and so on.

### **FINAL PAYMENT:**

The remaining balance is due in cash at puppy pickup.

We appreciate your patience while we allow the puppies time to grow and show their unique personalities. Waiting until after their health check helps ensure each family can choose a happy, healthy puppy with confidence.

*Thank you for trusting Sage's Goldens!*

We can't wait to help each of our puppies find the perfect forever home. ♥
